FOR IMMEDIATE RELEASE

CIT Relay & Switch offers the UL & TÜV Approved VM3 Series Snap-Action Switch

Minneapolis, Minnesota – CIT Relay & Switch is now offering our VM3 Series Snap-Action Switches with UL and TÜV approval. Featuring 0.187" or 0.250" termination, the VM3 Series offers SPST NO, SPST NC or SPDT functions with operating force from 80gF up to 180gF. This highly customizable switch also offers actuator lever options of pin plunger, roller levers, hinge levers and simulated rollers.

Common applications for the VM3 Series include lighting, security, automation, industrial controls, gaming and more! Specifications and materials are dependent upon your choice of options.

As with all the product offered by CIT Relay & Switch, the VM3 Series can be customized to fit every design engineer's needs. Contact CIT directly for a quote and sample of the VM3 – or one of our other snap-action offerings: the miniature SM3 Series or our "Coming Soon" sub-miniature series.

Lead-time averages 6 to 8 weeks. Volume pricing is dependent on option choices.

CIT Relay & Switch, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches. CIT Relay & Switch products are supported by a world-wide network of distributors and manufacturer's sales representatives. For more information about the CIT Relay & Switch snap-action switches or any of the CIT relay or switch product, contact CIT Relay & Switch, 14680 James Road, Rogers, Minnesota, 55374 USA.
